

Join the Global Health Collaborations Association (GHCA) for an
International Conference on Novel Diagnostics & Affordable Treatments,
in partnership with the UNA-USA Council of Organizations.
Advancing UN Sustainable Development Goal 3 (Good Health & Well-being)

FREE EVENT

www.globalfoundationdd.org

Date:

Thursday June 29, 2017

Time:

1:00 pm - 5:00 pm

Location:

Church Center for the United Nations,
44th Street at First Avenue (2nd floor),
New York, NY, 10017

This event takes a unique perspective on United Nations Sustainable Development Goal 3 (Good Health and Well-being) by initiating what will be a continuing series by the GHCA investigating novel diagnostics and affordable treatments. This half-day event held at the Church Center for the United Nations in New York City is an opportunity to chart at least part of the global landscape and to open the door to potential approaches to meeting the challenges so presented.

The objective is to foster outspoken participation by all present, leading to the collaborative effort clearly needed at all levels and in both developed and developing countries.
